Azure Migrate Technical Workshop, Technical Walkthrough, and Self-Paced (On-Demand) Class

Businesses today are looking to migrate their resources to the cloud, and utilizing Azure solves many of those infrastructure problems. Without support for IT, this transition can be challenging to transition smoothly. However, our team of experts can provide training for Microsoft's Azure Migrate service.

Our classes cover Azure Migrate terminology and best practices. We also provide practical and demonstration experience migrating virtual machines and a SQL DB into Azure.

We Built an Education Model That Accommodates Our Partners' Disparate Needs:
