Microsoft Sentinel Technical Workshop, Technical Walkthrough, and Self-Paced (On-Demand) Class

Are you ready to dive deep into the capabilities of Microsoft Sentinel and emerge with the knowledge to fortify your organization's cybersecurity defenses? Join us for an enlightening journey into the world of Microsoft Sentinel, Microsoft's premier Security Information and Event Management (SIEM) solution.

Why Microsoft Sentinel? In an era where cyber threats are ever-evolving, Microsoft Sentinel stands as a beacon of innovation, offering cloud-native SIEM and Security Orchestration Automated Response (SOAR) capabilities that empower you to detect, prevent and respond to security threats across your entire enterprise.

Benefits for attending:

- Introduction to Microsoft Sentinel
- Data Collection and Management
- Threat Detection and Optimization
- Incident Response and Investigation
- Microsoft Sentinel in Action
- Security Orchestration, Automation, and Response (SOAR)
- Best Practices
